

Mike Young

Senior Front End Developer | Web Platform & Digital Experience Specialist

Ontario, Canada · 647.230.1847 · mikeby83@gmail.com · www.mikeyoungs.com

PROFILE

Senior Front-End Developer & Designer with 19 years of experience building high-performance marketing websites and digital campaign assets for SaaS and financial brands. Specializes in translating Figma designs into pixel-perfect, responsive WordPress and modern component-driven web experiences. Actively integrates AI-driven tools into development and creative workflows to accelerate delivery and elevate output quality. Equally comfortable owning full web properties solo or collaborating closely with design and marketing teams to deliver business results.

TECHNICAL SKILLS

Languages & Architecture: JavaScript (ES6+), HTML5, CSS3/SASS, PHP, CSS/LESS/SASS, Semantic Markup

Frameworks & CMS: AstroJS, WordPress (Custom Themes & Plugins), Headless CMS, Tailwind CSS, jQuery, Bootstrap

Design & Prototyping: Figma, Adobe XD, UI/UX Design, Wireframing, Photoshop, Illustrator

Performance & Accessibility: Core Web Vitals, Lighthouse Optimization, WCAG 2.1 / AODA Compliance, Semantic SEO

AI Integration: Ollama / Local LLMs, GitHub Copilot, Prompt Engineering for Dev Workflows, AI-Assisted Prototyping

Tooling & Workflow: Git, Zed (Modern IDEs), Netlify, Asana (Asana Foundations Skill Badge), Agile, Cross-functional Collaboration

EXPERIENCE

ScalePad | *Front End Developer* Mar 2022 – June 2026 · Toronto, ON

- Sole front-end developer for the marketing division; own the end-to-end architecture, development, and maintenance of the corporate SaaS marketing website and all web properties using WordPress.
- Drove a 20% increase in Google PageSpeed Insights performance scores and optimized Core Web Vitals by architecting advanced caching strategies, configuring CDNs, and implementing automated image optimization pipelines to maximize SEO and user engagement.
- Engineered highly interactive bespoke landing pages and digital campaign assets from scratch using custom CSS and JavaScript, directly supporting major product launches and elevating brand positioning.
- Translated high-fidelity Figma mockups into pixel-perfect, high-performance web experiences with strict adherence to responsive design principles, brand standards, and WCAG accessibility guidelines.
- Integrated AI-assisted tools into daily development workflow — leveraging GitHub Copilot and LLM-based code review to accelerate build cycles, reduce repetitive overhead, and maintain higher output quality.
- Optimized site performance and Core Web Vitals — improving page load speeds and SEO foundations to maximize engagement and drive inbound lead generation.

- Partnered cross-functionally with marketing, design, and product teams; used Asana to manage campaign pipelines, prioritize workloads, and ensure on-time delivery.

CI Financial | *Front End Developer & Designer* Jul 2018 – Mar 2022 · Toronto, ON

- Engineered public and internal high-traffic web properties across the full development lifecycle within an Agile/Scrum framework, participating in active sprint cycles and retrospectives to optimize team delivery.
- Translated complex creative briefs into production-ready digital campaign assets, developing high-performance static and animated programmatic web banners tailored for large-scale financial marketing initiatives.
- Produced multi-channel multimedia content—including video and podcast assets—expanding brand reach and modernizing digital audience engagement channels.
- Bridged the gap between creative and technical requirements in corporate design review meetings, collaborating with cross-functional stakeholders to ensure technical feasibility and UI precision.

Intimate Interactive Advertising | *Lead Web Designer* Aug 2014 – Jul 2018 · Toronto, ON

- Managed a small front-end team through the full project lifecycle — requirements gathering, design, development, and maintenance — for a portfolio of lead-capture websites.
- Delivered modern, responsive websites using HTML, LESS, Bootstrap, and PHP, paired with custom logo, banner, and email design, to millions of monthly visitors.

Bluenotion Inc. | *Front End Designer* Oct 2010 – Aug 2014 · Toronto, ON

- Designed and built front-end experiences for clients including Rogers, Manulife Financial, HarperCollins, and Mike Holmes.

Booty Camp Fitness | *Design Director* Apr 2007 – Jun 2010 · Toronto, ON

- Built and maintained a national-reach website using HTML, CSS, PHP, and MySQL; handled all web, print, email, and video production for the brand.
